 \_\_\_\_\_

*Current meds:* \_\_\_\_\_  
*Previous sedation problems:* \_\_\_\_\_

*Special requests:* \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

- Notes:**
1. Metal causes interference with the MRI study, therefore shoes near the area of interest must be removed prior to acquiring images.
  2. Quote for study includes a written report from a board certified orthopedic surgeon.
  3. MRI studies are provided as a referral service. It is our preference to refer results to the referring veterinarian.
